Do you need cash quickly?

Are you a business looking to grow your team or space? Do you want to buy a new piece of equipment or inventory? Do you need to generate funds for a marketing campaign or cover funding for a large project? Do you need to bridge delayed funds or simply need some cash flow assistance? Then Fast Funding could be the product for you.

We offer unsecured UK business loans from £5,000 - £150,000 over terms of 1- 24 months, that are ideal for all business owners. Funds can reach your account in as quickly as 1 hour giving your business a quick cash injection!

Fast Funding with Moore Finance is paperless, simple, and takes less than 10 minutes. You decide how much financing you need and the length of time you want the business loan for. We look at your business merits when making you a funding offer and provide you with a clear repayment schedule, up front before you decide to draw out the funds.

Can Fast Funding work for me?

Here's a case study that demonstrates our capabilities and shows how Fast Funding has helped a commercial property purchaser.

A mortgage broker was working with his client to assist him with the purchase of a commercial property. The client needed a £20,000 deposit to bridge the gap between the sale of another property and this purchase.

We were able to utilise our Fast Funding short term business loan product without any hassle and little input from the customer. From the initial enquiry through to funds hitting the clients account - the whole process took under 8 hours and the purchase was successfully completed.

Rewarding referrals

Did you know that as a referrer you will be rewarded up to 25% of the commission on completed transactions. Contact us to find out more.
